

# What You Need to Create iPhone App with HTML

1. Become a member of Apple Developer Program \$100/year  
<http://developer.apple.com/>

2. Download xCode from Mac App Store (free)

3. Download Phone Gap (free)  
[www.phonegap.com](http://www.phonegap.com)

4. Use any HTML Editor  
(I use Dreamweaver)

**Optional:**

**Javascript Scripts from [jquerymobile.com](http://jquerymobile.com) and [jquery.com](http://jquery.com)**

**HTML 5 editor like [Hype.tumultco.com](http://Hype.tumultco.com)**
