

What You Need to Create iPhone App with HTML

1. Become a member of Apple Developer Program \$100/year
<http://developer.apple.com/>

2. Download xCode from Mac App Store (free)

3. Download Phone Gap (free)
www.phonegap.com

4. Use any HTML Editor
(I use Dreamweaver)

Optional:

Javascript Scripts from jquerymobile.com and jquery.com

HTML 5 editor like Hype.tumultco.com
